Philosophy

Interdisciplinarity is at the heart of a degree from the Department of Philosophy. Nationally ranked, we live at the intersection of science, technology, health, social sciences, and the arts and humanities by offering four optional areas of emphasis for undergraduates, and cutting-edge specialization for graduate students.

Philosophy Major and Minor with areas of emphasis in:

• Laws, Ethics and Society
• Science, Technology and Medicine
• Mind, Brain and Cognitive Science
• Historical Perspectives on Philosophy, Science and Religion

Bioethics Minor
